ADRIÁN GÓMEZ-VALADÉS CASTAÑO

IAM & CYBERSECURITY ANALYST | SAILPOINT

EXPERIENCE

STEMDO

Mérida, Spain

SailPoint IdentityIQ Bootcamp – IAM Training

2025

- Managed and configured SailPoint IdentityIQ, including installation, RBAC roles, workflows, and access policies.
- Developed BeanShell scripts for automating attribute management and account status logic.
- Designed dynamic forms and certification campaigns with automatic revocation and notifications.
- Generated identity reports, tracking active accounts, managers, assigned applications, and orphaned LDAP/JDBC accounts.

SIE Informática

Córdoba, Spain

Systems Technician – ASIR Internship

03/2024 - 06/2024

- Administered Windows Server environments, including Active Directory, GPOs, DNS, and DHCP in a corporate setting.
- Configured and managed network devices, including routers, switches, Wi-Fi, and VPNs.
- Provided technical support both remotely via AnyDesk and on-site for Level 1/2 end users.
- Managed Synology NAS servers, focusing on configuration, backups, and storage administration.
- Oversaw system virtualization and managed Docker containers.
- Configured and integrated devices into the corporate network.

EDUCATION

IES Castelar

Badajoz, Spain

Specialization in Cybersecurity in ICT Environments (CETI)

2024 - 2025

CES Ramón y Cajal

Córdoba, Spain

Higher Degree in Computer Systems Administration Network (ASIR)

2022 - 2024

IES Donoso Cortés

Don Benito, Spain

Intermediate Degree in Microcomputer Systems and Networks (SMR)

2019 - 2021

PROJECTS

VolatixLab – Personal DFIR Laboratory

Memory analysis using Volatility 3: investigating processes, network artifacts, and persistence mechanisms.

Disk forensic analysis with Autopsy: examining registry artifacts, prefetch data, shellbags, and constructing forensic timelines.

Simulating compromise scenarios in virtualized Windows environments.
